Houston, Tx. – June 7th, 2022

Hansa Meyer ROLI Projects LLC.

As agents for Rohde & Liesenfeld (USA) Inc. FMC License 028721NF

Two well established project logistics players started a new JV company to serve the North American project logistics market and their related project owners, EPC companies and suppliers.

Hansa Meyer Global Transport is already having their legal entity in the USA since 2010 but sold their shares in its operational and asset- based companies in 2021.

Hansa Meyer Global's agent partner, Rohde & Liesenfeld (USA) Inc. and Rohde & Liesenfeld Canada Inc. are already successfully serving the project logistics market in North America for more than 20 years.

Previously, Rohde & Liesenfeld worked as agent for the Hansa Meyer Global network outside the USA and also executed a number of US based industrial projects for the group.

The owners of both companies worked together 20 years ago for the R&L group.

"We feel thrilled about our strategy to combine our groups knowhow, capacity and contacts and to set up a brand-new company in Houston TX, the heart of the US industrial project market and to combine our forces" said Jan-Dirk Schuisdziara, Managing Shareholder at **Hansa Meyer Global**.

The JV business development in the USA will be steered by Mrs Julie Shafer, who has over 25 years of solid global project logistics leadership experience and who also had various project Management functions in GE Transport, Geodis and R&L.

Jan Beringer (CEO, Shareholder ROLI Projects) said "We are pleased now to be part of this JV with the Hansa Meyer Group and our joint success story in North America. Both companies are well known for unique, reliable, and creative project work. We have the same mindset, teams fit together very well and will be only stronger together".

Jan-Dirk Schuisdziara (Managing Shareholder, HMG Group) said" R&L has probably one of the best, most experienced and highly motivated expert project logistics teams in the US market, as they have again underlined with their recent handling of the logistics for the "USD 10 billion James Webb Telescope" transport for NASA's mission to French Guyana – we are proud to have them on our side to serve our demanding clients in the US market."

About Hansa Meyer Group

Hansa Meyer Global is known for almost four decades being a reliable "Transport Architect" for the global EPC industry. Established in 1986, we develop in cooperation with our customers **integrated transport concepts** and **plan and coordinate the worldwide transport** of complex industrial plants as well as oversized and heavyweight goods. Our strength is our local, highly qualified presence and our deep know-how of infrastructure on-site requirements. The same applies to technical challenges of global cargo handling and transportation.

Together with our own **internationally operating transport engineers** and our international network of competent partners we draw up feasibility and transport studies, risk assessments and packaging

concepts and organize logistics services ranging from special transports by all mode of transports up to construction site, logistics services including installation work.

Under the roof of Hansa Meyer Global Holding the group offers worldwide Project Logistics, Transport Engineering, Logistic Solutions, Airfreight and Consultancy services including end-to- end customer specific solutions via its own global network of 22 subsidiaries and selected global partners.

About Rohde & Liesenfeld (USA) Inc.

RoliProjects is a registered trademark of Rohde & Liesenfeld. Rohde & Liesenfeld, was incorporated in Hamburg Germany in 1954, and expanded into a multi-national network until 2008 when the network was sold to Geodis Wilson (with the exception of Rohde & Liesenfeld Canada). From 2008 until 2015 Rohde & Liesenfeld Canada Inc. operated as a 50% partner with Geodis Wilson. In 2015 Rohde & Liesenfeld Canada Inc. acquired the 50% shareholding of Geodis Wilson and is now a 100% Canadian owned company. Rohde & Liesenfeld Canada Inc. and Rohde & Liesenfeld (USA) Inc. are on a new expansion path to further develop their multi-national project handling capabilities and their alignment with Hansa Meyer for the U.S. market is a major step in that direction.

Rohde & Liesenfeld Canada Inc. is incorporated under the Canada Business Corporations Act on June 19, 2001, (Corporation number 391028-8 and Registered in the Province of Alberta under Corporate Access Number 219480647) as a federally incorporated Canadian company. R&L Canada's offices are strategically located in Calgary and Vancouver. R&L is a member of the [Canadian International Freight Forwarder's Association \(CIFFA\)](#) and the [Specialized Carriers and Rigging Association \(SC&RA\)](#). Rohde & Liesenfeld (USA), Inc. operates under the authority by the U.S. Federal Maritime Commission as an OTI freight forwarder and NVOCC. The company also operates under the authority of the Federal Motor Carriers Safety Administration as a property broker.
